A thank you from one of our neighbors:

"The people I met standing in line [for Thanksgiving dinner]...I felt like I was with family. I really did. It wasn't my traditional family, but it was an extended new family...And then lo and behold, not only did I get a gigantic hot meal, that was just amazing. It had everything, it had all the trimmings. I got a free blanket because I was about ready to sleep in my car. Days later. I ended up hearing that there was actually a program called Turning Point, and I got in. I came in for a hot meal on Thanksgiving, and I got so much more. Thank you." — ALVA
